Industry Leading **Curb Seal** Technology

It's not just any Skylight,
it's a **VELUX!**

VELUX's **3 patented layers** of water protection works seamlessly with a variety of roofing material, shedding water naturally without the use of "wet seals" to provide the most durable protection against the Canadian climate. At VELUX our products endure rigorous testing to ensure quality and performance in every box.
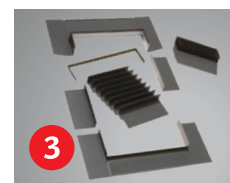

ENERGY STAR

The No Leak Skylight™
• No Leak Promise • No Worries

1 **Gasket:** The pre-attached curb gasket provides an **airtight and caulking-free seal** between the site-built curb and the skylight.

2 **Adhesive Underlayment:** The adhesive underlayment provides **secondary water protection** throughout the harshest weather conditions.

3 **Flashing:** Easy to install engineered flashing is the **primary water protection**.

Features on all Curb Mounted Skylights

- Superior corner key design eliminates exposed fasteners for improved weather performance and aesthetics.
- Venting models have interior finished white frame to sit on site-built curb.
- Exterior fastening eliminates the need to enter the home during installation.

The No Leak Curb Mounted Skylights

VCS
Solar Powered "Fresh-air" Skylight

Simple remote

- No wiring required; skylight is fully functional regardless of the time of day.
- Standard with insect screen and simple remote control.
- Acoustic raivn sensor to close skylight in inclement weather.
- Superior corner key design eliminates exposed fasteners for improved weather performance and aesthetics.
- Closed cell foam gasket seals the skylight to the curb preventing water and air infiltration. No need for wet seals i.e. caulking.
- **VELUX recommends a 5° slope for water drainage when installing on a flat roof.**

VCE
Electric Venting "Fresh-air" Skylight

Simple remote

- Includes integrated motor and control system with 20' of standard electrical cable.
- Standard with insect screen and simple remote control.
- Rain sensors to close skylight at first drop of rain.
- Superior corner key design eliminates exposed fasteners for improved weather performance and aesthetics.
- Closed cell foam gasket seals the skylight to the curb preventing water and air infiltration. No need for wet seals i.e. caulking.
- **VELUX recommends a 5° slope for water drainage when installing on a flat roof.**

VCM
Manual Venting "Fresh-air" Skylight

Crank handle included

- Standard with insect screen, operator hook and crank handle.
- Superior corner key design eliminates exposed fasteners for improved weather performance and aesthetics.
- Closed cell foam gasket seals the skylight to the curb preventing water and air infiltration. No need for wet seals i.e. caulking.
- **VELUX recommends a 5° slope for water drainage when installing on a flat roof.**

FCM
Fixed Curb Skylight

- Ideal for visually expanding areas and delivering abundant natural light.
- Dual functioning condensation gasket system that seals skylight to the curb preventing water and air infiltration. No need for wet seals i.e. caulking.
- Condensation weepage system on all four corners.
- **VELUX recommends a 5° slope for water drainage when installing on a flat roof.**
